Lab Slot: L13+L14+L27+L28

Faculty name: Prof. Ganesh Shamrao Khekhare

Project Title: ***Homes28***

Project Description:

~ Explore *Homes28*, a premier platform for buying, selling, and renting properties. Our user-friendly interface offers a seamless experience for navigating the dynamic real estate market. Whether you're searching for your dream home, seeking a lucrative investment opportunity, or listing your property, our website provides comprehensive listings, expert advice, and convenient tools to streamline your real estate journey. With a commitment to excellence, we are your trusted partner in the world of real estate transactions.

Source Code:

<https://github.com/vanshs2022/Homes28>

(This is the link to the github repo for the code where we both are collaborator for the repo due to the length of the code this file size was getting huge so we had to attach URL for this)

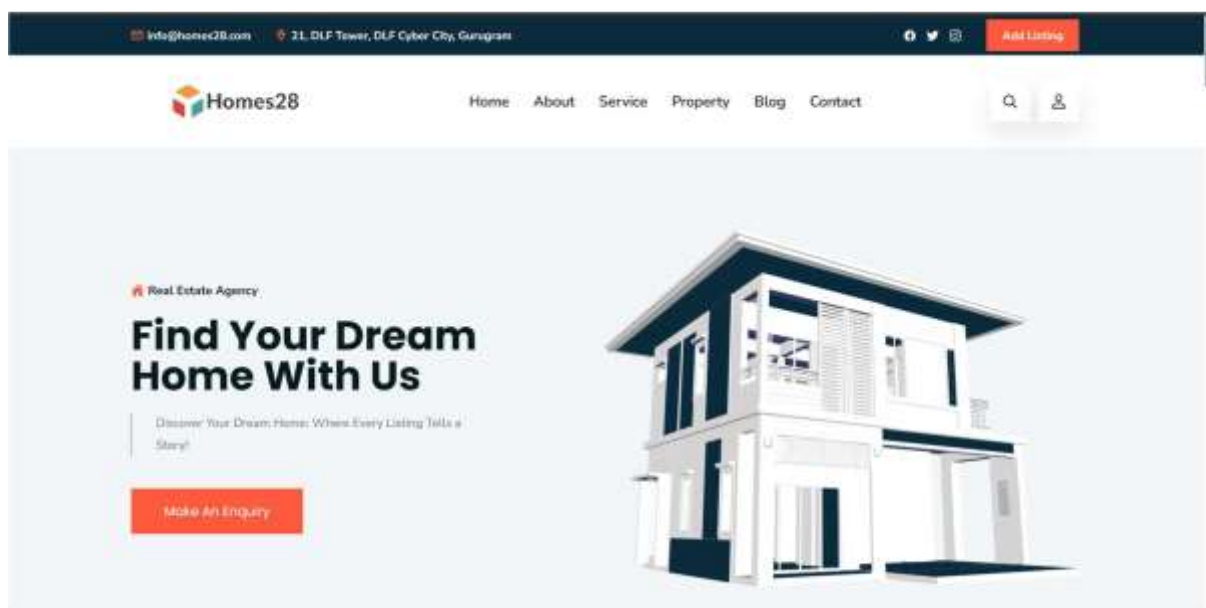

Website URL:
